

WEEKLY REPORT
Air Division
Environmental Protection Agency
Region 9
Week Ending December 2, 2016

Significant Items for Last Two Week (November 21 –December 2)

South Coast Combustion Rules: On November 21, the Acting Regional Administrator signed a Federal Register notice finalizing approval of two combustion rules from the South Coast Air District limiting oxides of nitrogen emissions from commercial food ovens and revising NOx requirements from miscellaneous NOx sources including certain ovens and dryers. (Contact: Nicole Law, 7-4126)

Federal Implementation Plan (FIP) Revisions for Four Corners Power Plant (FCPP): On November 22, the Acting Regional Administrator signed a Federal Register notice proposing to revise the FIP for FCPP, removing provisions that provide emission limit exemptions during periods of startup and shutdown and an affirmative defense for malfunctions, and streamlining monitoring requirements for particulate matter and opacity. (Contact: Anita Lee, 2-3958)

Nevada 2008 Ozone Transport State Implementation Plan (SIP): On November 22, the Acting Regional Administrator signed a Federal Register notice proposing to approve the interstate transport portions of Nevada's Infrastructure SIP for the 2008 ozone standard. Deliberative Process (b)

[REDACTED] (Contact: Tom Kelly, 2-3856)

US-China Green Ports and Vessels Initiative (GPVI): From November 28th to December 9th, the EPA and the China Ministry of Environment and Ministry of Transport co-hosted the second GPVI Workshop and Study Tour, advancing approaches to emissions reductions for ports and vessels. Region 10 Administrator Dennis McLerran and Director General Yu Fei opened the workshop and committed to continued collaboration. The GPVI Workshop and Study Tour cover a wide range of important topics including port and vessel requirements, partnerships and incentives, enforcement, green technologies, emissions inventories, air quality and health assessments. (Contact: Penny McDaniel 7-4203)

Public Hearing, General Permit for Gasoline Dispensing Facilities in Indian Country within California: On November 30, we hosted a public hearing on our draft general permit for gasoline dispensing facilities (GDFs), such as gas stations, located in Indian country within California. We have proposed to establish a uniform set of requirements that will streamline EPA's permitting of gas stations and complement the requirements for gas stations already in place on non-tribal lands in California. (Contact: Lisa Beckham, 2-3811)

Owens Valley PM10 Plan: On December 1, the Acting Regional Administrator signed a Federal Register notice proposing approval of the Owens Valley PM10 air quality attainment plan. (Contact: Ginger Vagenas, 2-3684)

Antelope Valley Reasonably Available Control Technology (RACT): On December 2, we plan to request the Acting Regional Administrator's signature on a Federal Register notice proposing a partial approval and partial disapproval of demonstrations that the Antelope Valley

Air District has implemented all RACT as required for the 1997 and 2008 ozone standard.
